EDUCATION

Gujarat Technological University
    Bachelor in Engineering, 2013

PROFESSIONAL SUMMARY

- Experience in implementing different automation development efforts in Agile/Scrum
- Involved in design and implementation of Selenium WebDriver Automation Framework for Smoke test and Regression test using TestNG.
- Automated regression test cases using Selenium WebDriver and Cypress
- Performed BDD (Behaviour Driven Development) using Cucumber Features, Scenarios and Step
- Reviewed database test cases according to assigned Requirements to validate reports by retrieving data with complex SQL queries from SQL Server
- Experienced in leading offshore team and adjusts work assignments or schedules to meet changing work-related priorities or demands.

WORK EXPERIENCE

Documo , QA Engineer
JAN 2022- PRESENT

- Implementing an automation framework for Regression tests using **Cypress** .
- Performed API testing using POSTMAN for documents and faxes
- Actively participated in scrum meetings as QA team
- Maintaining Test cases for each JIRA ticket
- Actively participated in Retrospective meetings with Impact analysis reports
- Generated Weekly Reports for regression testing, Defect Reports, and Customized Summary Reports.

Clippd , QA Engineer
DEC 2020 - JAN 2022

- Designed and implemented Test Framework based on Data Driven Framework and POM(Page Object Model) from the scratch using **Cypress**
- Written End-to-End UI tests using **Percy** with **Cypress**
- Verifying data by writing SQL queries
- Verifying Step functions in AWS and analysing the root cause for failure with a report
- Track quality assurance metrics, like defect densities and open defect count.

Thomson Reuters , Senior Automation Engineer
JUN 2019 - DEC 2020

- Assessed and analysed user stories, Business Requirements (BRD), Functional Requirements (FRD) and participated in Sprint planning, Review Sessions and Scrum Meetings.
- Designed and implemented Test Framework based on Data Driven Framework and POM(Page Object Model)
- Track quality assurance metrics, like defect densities and open defect count.

Alept Consulting Pvt. Ltd., QA Engineer
DEC 2015 - JUN 2019

- Reviewing quality specifications and technical design documents to provide timely and meaningful feedback
- Performed Performance Testing & Load Testing using Jmeter
- Performed data validation testing writing SQL queries
- Responsible for creating complete test cases, test plans, test data, and reporting status ensuring accurate coverage of requirements and business processes

Tatvasoft, QA Engineer
MARCH 2015 - NOV 2015

- Generated test cases as per Use cases defined in product requirement document.
- Performed Performance Testing & Load Testing using Jmeter
- Performed data validation testing writing SQL queries
- Responsible for creating complete test cases, test plans, test data, and reporting status ensuring accurate coverage of requirements and business processes

Milestone Internet Marketing,QA Engineer
AUG 2013 - FEB 2015

- Reviewing quality specifications and technical design documents to provide timely and meaningful feedback
- Actively involved in reviewing test cases.
- Involved in Functional Testing, Re-Testing, Regression Testing and Endto-End testing, UI Testing, Time Zone Testing, Regular sanity Testing, Database Testing and Cross Browser Testing.
- Periodically obtaining feedback from Team lead and consciously working for Improvements

Sandhi Digital Media Marketing Pvt. Ltd., Junior QA Engineer
APRIL 2013 - AUG 2013

- Generated test plans by including test scenarios, test cases and testing environments
- Wrote and executed Unit Test Cases including detailed instructions and anticipated results
- Conducted regression, functional, and adhoc testing for cross browser testing.
- Verification of the fixed bugs and subsequently closing them if they passed the test case.

S K I L L S

- **Testing Tools :** Selenium WebDriver , Cypress ,JMeter , TestNG , Postman , Cucumber
- **Build & Integration Tools:** Maven, Jenkins
- **SD Methodologies:** Agile -Scrum, Waterfall
- **Test Framework :** Data Driven framework , Page Object Model (POM)
- **Languages:** Java, JavaScript, Python, C# and SQL
- **Version Control:** SVN , GIT , Bitbucket
- **Web Technologies :** HTML, XML, CSS, DHTML, Angular JS, Node.JS
- **Web Debugging Tool :**XPath, Firepath, Firebug
