Joseph Mwangi

Full Stack Developer

Creative and results-oriented web developer, offering extensive experience in building cutting edge websites and applications. Highly skilled in various programming languages, coding and design concepts through testing, implementation and project management. Diligent about producing exceptionally clean, strong and secure code. I am looking for a position in a fast-paced company that appreciates hard work, dedication and evolving technical skills.

Experience

▪ Full Stack Engineer

Seloku *San Francisco, CA*

Dec 2022 - Present

PHP, Javascript, Laravel, React, NodeJs, Vue, S3, MySQL

- Examined user requirements, developed and verified program functionality and performance against targets with consistent quality and reliable on-time delivery.
- Completed unit, API integration tests, and regression tests on Seloku CRM software and individual modules and wrote manual test cases, maintaining optimal organisation for team productivity.
- Tested functionality, performance and compliance of products against design specifications
- Planned and implemented automated testing scripts with Selenium and Cypress, to maintain strong development standards and high customer satisfaction while minimising labour hours and maximising team performance.

▪ Full Stack Developer

Portuit *Sheridan, Wyoming*

Jan 2020 - Nov 2022

PHP, JavaScript, Bootstrap, React, WordPress, Laravel, NextJs

- Handled front-end and back-end of websites to integrate server, themes, plugins APIs and databases to add features and tools and extend WordPress functionalities
- Conducted website performance tests to optimise speed, SEO and network bandwidth usage on both codebase and AWS ec2
- Lead code reviews with team to brainstorm areas requiring improvement, define technical approaches, validate design and implementation of features.
- Planned the delivery for new requirements and estimated feasibility performance analysis by forecasting risks

▪ Software Developer

ABNO Softwares International *Nairobi, Kenya*

2017 - 2019

Python, Angular, Tailwind, Flutter, MongoDB, CodeIgniter

- Worked with Agile and Scrum methodologies to successfully develop products with varied technology across PHP, JavaScript, React, Python, HTML/CSS and accomplish project milestones with demanding timelines.
- Produced prototype to demonstrate core functionality at various development stages.
- Assisted other software engineers as required, including troubleshooting bugs, debugging software, code documentation, and developing applications.
- Continuously developed coding skills and codebase knowledge by attending regular training, overseeing professionals and regular practice.

Education

▪ Bsc Computer Science

JKUAT *Kenya*

- Dissertation in Internet-based services, products and technologies.
- BSC Computer Science & Technology Graduate.
- Coursework in systems programming.

▪ Diploma - DevOps Engineering

Moringa Te *Nairobi, Kenya*

- Coursework in Web Design Programming
- Amazon Web Service (AWS)
- Microsoft Azure
