

# RESUME

## 2024

### HEY!

### I'M ISHA

A 24 year young animator who spent her days inking a doodling, painting or sketching, something which has been one constant throughout my life. My childhood days used to get piqued by wonderfully rendered stories from my grandma, followed by watching cartoons, reading comic books and following epics like Ramayan and Mahabharat. As i grew, my creativity was broadened by action movies, web series and animes. They influenced my choice of career which would further strengthen my creative mind.
